

Early Career Pharmacist

- Barking and Dagenham, East London
- £36,000 to £42,000

Specialist Pharmacy is the UK leader in the preparation of Bioidentical Hormone Replacement Therapy medicines. Specialist Pharmacy provides reliable, responsive customer service delivering personalised medications for a large customer base. Our medicines are made uniquely for all our patients and prescribers.

This is a good opportunity for an early career pharmacist to gain experience and skills in the business environment of our cutting-edge compounding pharmacy.

Working with the Director of Operations / Superintendent Pharmacist, you will own the Quality Management System which translates into operational excellence at Specialist Pharmacy.

Main Responsibilities

- Ensuring that GMP standards have been upheld during the compounding process
- Delivering product specifications (e.g., qualitative, and quantitative including ingredient quantities and final product appearance)
- Undertake staff management duties as directed by senior pharmacists
- GPhC Registered Pharmacist
- Dependable, reliable, trustworthy, having excellent communication skills and able to work with minimal supervision
- Self-motivated with a positive outlook and able to remain calm under pressure
- Ability to follow instructions methodically with excellent attention to detail
- Ability to problem solve and action change effectively when required
- Production/Compounding experience is desirable

Benefits include

- Comprehensive health care benefits
- Up to 15% performance bonus (not guaranteed)
- Free car parking

The pharmacy is 5-minute walk from Dagenham East Underground (district line).

We look forward to receiving your CV.
