

JOB ADVERT

JUNIOR SOFTWARE DEVELOPER

Salary/Rate

£32000 - £38000 per annum 25+ annual leave + health insurance + discretionary bonus

Location

Remote working, occasional days on site at the Pharmacy, Dagenham, RM10 7FN

Company

Specialist Pharmacy

Description

The Specialist Pharmacy works in the unique area of specialised compounding and are market leaders in compounding bio-identical hormone medicines. You will join a team of professionals who work closely to provide first class services to a wide range of clients and prescribers.

We are looking for an intelligent, early career software developer who is passionate about delivering high quality software solutions. You will work with our senior software consultant to identify, understand, and respond to the needs of internal and external customers to meet the company's growing pharmaceutical business.

Your responsibilities will include:

- Analysing user requirements
- Helping to identify and find optimal solutions to the problems the business is trying to overcome
- Contributing to the development of company software solutions
- Suggesting ways in which our software can be used to make our business more efficient
- Writing high quality code, consistent with company standards and best practice
- Develop and use functional tests to ensure the programme behaves as expected

Essential to the role:

- Bachelor's degree in computer science or related field
- 1-3 years related experience in database operation and development
- Strong experience of API integration, with some experience of MySQL
- Ability to deal with multiple projects simultaneously

Benefits include: a competitive salary; health insurance; free car parking; annual discretionary bonus

Location: work from home
